PRINCIPIA COLLEGE

To: All Principia College Employees
From: Andrew Lesky, Director of Security
Re: College 2025 Annual Security and Fire Safety Report

You are receiving this notification in accordance with the federal regulation 34 CFR 668.41(e), which requires colleges and universities to provide to all employees information about the College's Annual Security and Fire Safety Report.

Principia is dedicated to helping all members of our community prioritize their safety and security. The 2025 Annual Security and Fire Safety Report (ASFSR) for the Principia College campus is now available and can be accessed online at https://www.principiacollege.edu/student-life/campus-security/annual-security-and-fire-report .

If you would like a hard copy of the report, please email your request to watch.security@principia.edu, call 618-374-5480, or visit the Campus Security Office on the terrace level of Howard Center, Monday through Friday, between 9:00 a.m. and 4:00 p.m. To reduce paper waste, printed copies are produced upon request, so please allow time for printing if you visit in person. Alternatively, the report can be mailed to you upon request.

This report is required by the Clery Act, a federal law, and includes policy statements as well as crime and fire statistics for the College. The policy sections cover various topics such as emergency response procedures, notification protocols, sexual offense investigations, and documentation of drug and alcohol violations on campus. The report provides three years' worth of statistics on specific crimes reported within Principia College's Clery-defined geography, and these statistics are also submitted annually to the federal government.

We encourage all members of the Principia community to review the report and familiarize themselves with the resources available to promote safety on campus.

The current 2025 ASFSR includes data from 2022 to 2024. Statistics for 2025 will be included in next year's 2026 report.
